This is a list of members of the Board. It is also a list of liaisons to the various committees that we have in our church. The purpose of the liaison is to be in contact with these committees and bring reports of their ongoing work to the meeting of the Board.

Our hope is that this kind of connectedness between the committees and the Board leads to two things:

1. Better understanding of the work of the church for all members of the Board
2. Better communication across the whole congregation.

We all know that communication has been a stumbling block for us in the past, and we endeavour to create stronger bonds within our congregation.

As always we seek your input into the life and work of this part of the body of Christ.
